✓ **OK:** 38444

69%

Ok means the email address exists. Ok are good emails and are SAFE to send an email to.

⚠ **CATCH ALL:** 3907

7%

Catch-All means the email server is set to accept all mail, even emails sent to an account that does not exist. So it can be RISKY to send an email to.

⚠ **UNKNOWN:** 3458

6%

Unknown means at the time of the verification, we couldn't determine whether the email address exists. It is possible that at a later time, we can successfully verify unknowns. It can be RISKY to send an email to.

✗ **INVALID:** 10203

18%

Invalid means the email address does not exist. Invalids are bad emails and are NOT SAFE to send an email to.

✗ **DISPOSABLE:** 12

0%

Disposable means this email account is hosted on a temporary email address provider. Disposable emails may exist only for a few minutes. Therefore, they are bad emails. It is NOT SAFE to send an email to.
